

SPI Show 2019 - Come see us at the show!

SOLAR POWER INTERNATIONAL

With over 19,000 attendees and 700 exhibitors, Cachelan is excited to announce that for the first time we will be exhibiting at the Solar Power International (SPI) show in Salt Lake City, Utah! The Cachelan team is thrilled to attend this event for the first time as we are looking forward to making new networks, connecting with our clients and industry colleagues and keeping up with the international solar energy conversation.

Come by and talk to us to learn how we can support your sites with SolarVu monitoring. We look forward to hearing about your projects and how we can best make sure you can maximally get returns from your assets.

VISIT US AT SOLAR POWER INTERNATIONAL

September 23 - 26, 2019

Booth 5513

Can't make it to the show? Don't worry – contact us to learn how Cachelan monitoring and software can help with your next solar project.
